

NS541 Session 4 (At-home Session) – Checklist

- ____ 1. Complete the worksheet, on gravitation, that is posted under session 4 at <http://physics.bu.edu/~duffy/NS541.html>. There is some reading material posted there, too.
- ____ 2. The second page of the worksheet refers to a 2-page article that is posted on our WebCT site, and asks you to use Excel (or something equivalent) to duplicate the graphs in the article.
- ____ 3. Complete Assignment 2 on WebAssign. (<http://www.webassign.net>)
- ____ 4. Read the two readings for this week:
- Novak, J. & Gowin, B. (1995). *Learning how to learn*. (pp. 14 – 34).
 - Descartes, Principles of Philosophy. Part III, Propositions 46 – 102; Part IV, Propositions 1 – 31.
- ____ 5. There will be a set of questions on this week's conceptual history reading on the WebCT site (<http://webct.bu.edu>), that you should complete and post back onto the site. On WebCT, look for the course link for our course, or use the “my WebCT” link.” Note that it will take us some time to set up the site – we can't do this until everyone is registered. If you are new to the ITOP program, you will need to establish a BU computer account before you can access WebCT – we will send instructions for how to do this.

If you have questions about the material, or you'd like to comment on any aspect of the process, please use the discussion board that is on the NS541 WebCT site. We will try to monitor the discussion board and post replies in a timely manner. Please feel free to reply to other people's questions and comments, though.

Teachers in the Boston group can e-mail Manher directly at manher@bu.edu

Teachers in the Chicopee group can e-mail Andrew directly at aduffy@bu.edu
