

NS547 Session 6 (At-home Session) – Checklist

____ 1. There is a worksheet under session 6 at <http://physics.bu.edu/~duffy/NS547.html>. Please complete this for the next session.

____ 2. Instead of an Assignment 3, we are giving you an early look at the first half of the take-home midterm test. That is also under session 6. Feel free to hand this in at the next session, or to hand it in at the session after that, with the second half of the midterm.

____ 3. Read chapters 8 and 10 from *The Making of the Atomic Bomb*

____ 4. We would like you to reflect on how your teaching has been influenced by your participation in the ITOP courses. Please start a document on your computer with some thoughts about this, and upload it on the wiki site. Each week, you should add to your document and upload it to the wiki (<http://itop.pbworks.com>).

____ 5. We will all meet together on-line to discuss homework, worksheets, and other course-related issues. We will do this using GoToMeeting. Please go to www.gotomeeting.com to get some information about how this will work. Joining the meeting itself should be as easy as following a link in an e-mail you will get from me,

If you have questions about the material, or you'd like to comment on any aspect of the process, please use the discussion section of the wiki site. We will try to monitor the discussion board and post replies in a timely manner. Please feel free to reply to other people's questions and comments, though.

Teachers in the Boston group can e-mail Manher directly at manher@bu.edu

Teachers in the Chicopee group can e-mail Andrew directly at aduffy@bu.edu
